Mr. Hopkins stated that he has not received data from NHIAA regarding impact of Life of an Athlete to present. We have received several letters of support and will be obtaining information within our District from Teen Drug Court for past 3 years to look at hard data. The Teen Drug Court data may not necessarily be related to athletics but we can see the results and impact from that particular program.

Discussion ensued regarding language changes to eligibility at the middle school level versus high school; and participation in extra-curricular clubs and organizations. Mr. Hopkins will work on noting different eligibility requirements to participate at both the high school and middle school level. Mr. Watson suggested researching the best policy in place throughout the US pertaining to rules and regulations; success rate data is important to review before implementing changes.

Mr. Allen moved, second by Mr. Pappas, to return policy IGDJA, Athletic Rules and Regulations to the table in order to collect additional data. The motion carried unanimously.

FIRST AID (AND EMERGENCY CARE)

First aid or emergency treatment in case of sudden illness or injury to a student or a member of the staff while on school grounds may be given by staff, in accord with School Board policy. Further medical attention to students is the responsibility of the parents or guardian, or of someone the parents or guardian designate in case of emergency.

Each principal is charged with providing for the immediate care of ill or injured persons within his/her area of control. A school nurse or other qualified staff member will administer emergency aid.

In each school, procedures for the handling of such emergencies will be established and made known to the staff. Each school will be equipped with appropriate first aid equipment. All employees are expected to be knowledgeable about first aid and to know where first aid supplies are kept in their work areas.

Students who are too ill to remain in class should report to the nurse or designated school personnel. The nurse or designated school personnel will decide whether the student will remain in school or be sent home. If the student is allowed to go home, the nurse or designated school personnel will be required to telephone the parent or person listed on the Emergency Notification Form before the student leaves school. The student will not be allowed to leave unattended. The nurse shall keep a log of students receiving first aid and emergency care.

The principal must be notified at once of all accidents or illnesses of any consequence. A detailed accident report should be made immediately after other essentials are completed in order to ensure accuracy by the Duty Teacher or witness. Information should include name of injured, date, time of day, place, extent of injury, first aid given, disposition of case. Students are to be sent directly to the nurse's office or main office in case of accidents.

Transportation of pupils to a source of medical attention is the joint responsibility of the parents and school authorities. In the event the parent or other responsible person is not available, the school shall assume this responsibility. In cases of extreme emergency, the pupil will be transported to the hospital and the parents will be notified as soon as possible.

Naloxone/Narcan and Opioid Antagonists:

The Board authorizes the District to obtain, store and administer naloxone/Narcan and/or other opioid antagonists for emergency use in schools.

The school nurse or other properly trained staff member may administer such medication in emergency situations. Opioid antagonists will be available and accessible any time the building is occupied.

The Superintendent is authorized to procure such medication on behalf of the District.

All such medication will be clearly marked and stored in a secure space in the school nurse's office or other appropriate location. ~~Such medication will be locked at all times except when needed for administration.~~ The school nurse is responsible for will oversee the storing of the medication consistent with the manufacturer's instructions.

Local law enforcement and emergency medical service personnel will be notified if such medication is administered by the District.

Records related to the administration of such medication shall be made and maintained by the school nurse. The school nurse will follow other first aid reporting protocols, as may be determined by other Board policy or administrative directive.

ATHLETIC RULES AND REGULATIONS

SPAULDING HIGH SCHOOL/ROCHESTER MIDDLE SCHOOL ATHLETIC RULES AND REGULATIONS ROCHESTER, NEW HAMPSHIRE

PREFACE

The following rules and regulations have been designed to bring about an understanding between the student-athlete, the family, and the Athletic Department. It is required that the student-athlete and parent/guardian sign this agreement, thereby fully realizing the effort and dedication that the program requires. By signing this agreement it indicates a full knowledge and understanding of the rules, regulations, dedication and supports that participating in this and all sports demand.

GENERAL ROLE AND RESPONSIBILITY

It is expected that the student-athlete will display appropriate behavior in school, contribute to school spirit by participating in various events such as rallies, respect the abilities of the other sports, and show a spirit of cooperation with teachers and school officials.

ELIGIBILITY

2. Physicals completed **prior** to June 1st of a student's eighth grade year, are good for one year. Physicals completed **after** June 1st of a student's eighth grade year, are good for the remainder of their high school eligibility.

A student-athlete must meet the minimum requirements for eligibility by NHIAA standards, plus receive no more than one Not Yet Competent (NYC) **or** Insufficient Work Show (IWS) each mid semester grade or final grade for a nine week course.  - There is newly discovered important evidence not known at the time of the hearing or disciplinary action.
 - 5-iii. The burden of proof is on the appellant that no substantial evidence to support the finding is present.
6. Any second expulsion ~~during the same school year~~ shall result in suspension from all athletics for 365 days from the time of the second infraction.

ASSIGNMENT OF STUDENTS TO SCHOOLS

It shall be the duty of the Superintendent or the Superintendent's designee to assign students to schools.

Students shall be assigned to schools based upon their home address. The specific assignments zones shall be reviewed by the administration on an annual basis, and updated on the district's website.

The only exceptions are listed below:

1. Special needs of specifically coded students.
2. Class size in each school building, understanding that the Rochester School Board goals for class size have been set at 18 in kindergarten, 22 students per classroom in grades 1, 2 and 25 students per classroom in grades 3, 4 and 5.
3. Siblings would remain in the same school building (except in the case of the Nancy Loud School, and School Street School which do not house all elementary grades)
4. Magnet School Assignments by policy JECC-1, Assignment of Students to Magnet Schools.

The Special Services Committee shall hear appeals of student assignments. The Committee shall make a recommendation to the Board for final approval of any change in student assignments.

JECC-1

ASSIGNMENT OF STUDENTS TO MAGNET SCHOOLS

It shall be the duty of the Superintendent or the Superintendent's designee to assign students to schools.

The Maple Street Magnet School Assignment will be based on the criteria outlined below. Elementary students from the entire Rochester community are eligible to request the magnet school. The Superintendent will determine the number of students in each class, which will determine the available slots. The kindergarten classroom will have at least 5 students from the former Maple Street School assignment zone. Requests for available slots will be accepted from February 1st. If there are more requests than slots available, then a lottery will be used for any open slots and a waiting list established. The lottery will occur near the end of March each year.

The lottery will select student ID numbers and families will be chosen to attend the magnet school based on the order of the lottery. If a family is applying for the magnet school, each student would have a chance to be selected. The first family member selected would allow entry of all students into the magnet school, if there is room in the grade for that student.

If a student will be enrolled in the magnet school, for the following school year their younger siblings will be enrolled without being included in the lottery. If an older sibling had attended the school, but is not currently enrolled, the student must be part of the lottery.

If a student is offered an available slot before the start of the school year, and decides not to accept the slot, they will be removed from the waiting list. If a slot becomes available during the school year, not accepting the transfer does not remove the student from the waiting list.

The waiting list will continue from year to year, and new requests for attendance will be added to the waiting list, based on the lottery.
