Birds are singing, flowers are blooming, and warmer temperatures are here! The summer break is quickly approaching and we are ready to begin wrapping up another successful school year. The school is buzzing with some exciting events this month, and we invite you to come in and see first-hand the great celebrations we have planned for your child(ren)!

As we move towards summer break, I want to take a moment and remind our students and families of the importance of digital citizenship. We are constantly using technology as a tool to communicate with each other and learn new things. We would like to remind students and families of the importance of using social media responsibly. Much like our code of conduct here at school, we encourage and teach students to model the same code of conduct online. Be safe, be respectful, and be responsible. Politeness counts when we use social media to communicate and learn new things. Once something is posted, it cannot be taken back – even if the post is deleted from a site. We teach our kids that you have little control over what happens when something is posted online and nothing is truly private. We are amazed every day at how quickly our posts on our school's Twitter account reaches hundreds of people over time. The same goes for our Facebook postings, both professional and personal. We encourage you to take the time this summer to continue educating each other on the importance of digital citizenship and appropriate online behavior. A good site to begin with for more information is: <http://www.cyberwise.org/digital-citizenship-resources>

We look forward to ending our school year with a bang. Please be sure to see the upcoming events for our students this month and come join the pride!

Erin E. Mahoney, Ed.D
