

## **Rochester Middle School Gym Floor Resurfacing Project**

### **Addendum #1**

In response to questions that arose at the mandatory pre-bid conference and walkthrough on Tuesday April 14, 2020 Rochester School District is issuing Addendum #1 as follows:

- Bleachers are to be removed by the District to allow the successful bidder to pour new floor under the footprint of the closed bleacher. The bleachers will then be replaced by the District to allow for resurfacing of the remaining area.
- Project cost includes replacement of all game lines in the same configuration as they are now. Additional lines may be requested by the District at an additional expense.
- All existing cove base is to be removed and replaced with new cove base in a color to be chosen by the District.
- Project cost includes removal and repair of any compromised areas prior to new pour.
