

IM

EVALUATION OF INSTRUCTIONAL PROGRAMS

The purpose of evaluation of instruction will be:

1. To determine education needs and provide information for planning.
2. To indicate instructional strengths and weaknesses.
3. To check on the suitability of programs in terms of community requirements.
4. To show the relationship between achievement and the system's stated goals.
5. To provide data for public information.

Instructional programs shall be directed by the Superintendent to report periodically to the School Board on the progress the district is making toward the attainment of its educational goals.

Adopted: April 8, 1993

School Board Review/Approval: December 13, 2012
