

Rochester School District Computer & Communications Policy Statement

Introduction

The Rochester School Board recognizes the value of computer and other electronic resources to improve student learning and enhance the administration and operation of its schools. To this end, the Board encourages the responsible use of computers, computer networks, including the Internet, and other electronic resources, in support of the mission and goals of the Rochester School Department and its schools

Because the Internet is an unregulated, worldwide vehicle for communication, information available to staff and students is impossible to control fully. Therefore, the Board adopts this policy governing the voluntary use of electronic resources and the Internet in order to provide guidance to individuals and groups obtaining access to these resources on School Department-owned equipment or through School Department-affiliated organizations.

School Department Rights and Responsibilities

It is the policy of the Rochester School Board to maintain an environment that promotes ethical and responsible conduct in all computer and communications equipment activities by staff and students. Within this general policy, the School Department recognizes its legal and moral obligation to protect the well being of students in its charge. To this end, the School Department retains the following rights and recognizes the following obligations:

7. School district reserves the right to "block" at any time any sites or services that could cause bandwidth issues that affect the overall stability of the network.

Staff Responsibilities

1. Staff members who supervise students, control electronic equipment, or otherwise have occasion to observe student use of said equipment shall make reasonable efforts to monitor the use of this equipment to assure that it conforms to the mission and goals of the Rochester School District.
