Dear Tri-City CTE Program Student and Family,

The Tri-City Career Technical Centers (Dover, Rochester, Somersworth) will be in remote learning for all CTE programs until at least October 1st. This means centers will not be sending or receiving any students during this time – students will be able to access their CTE program remotely. There are some variations of remote learning schedules within our region (due to Remote Learning Schedules still pending, please check one of our CTE Centers website in the coming days for updated information), but we are committed to being as flexible as possible to allow students access to their CTE programs. At the end of September the Tri-City Superintendents and School Boards will make a decision regarding when and if we will be able to bring in sending students.

We appreciate your patience and understanding during this challenging time. Please know we are working hard behind the scenes to provide an enriching CTE experience for your student this year.

If you have any questions about this upcoming year, please reach out to the Career Technical Education Director (or designated CTE point of contact) at your student's school of enrollment to discuss further.

Sincerely,

Samantha Tukey
